

Installation PCMCIA V.90 under Windows NT4.0

- a. Plug in the card into the PCMCIA-Slot (TYP II or TYP III). If you have problems to find the right slot, have a look at the manual of your PC or ask the manufacturer respectively your PC-dealer. Make sure that the card is plugged in tough.
- b. Connect the card with the delivered phone cable (possibly with adapter) with the N-Slot at the wall socket of the phone-line.
- c. Start your PC.
- d. Go to *"start – settings – control panel – PCMCIA"* and verify if the PCMCIA Card has been recognized and at which com port she is lying (properties). Close the window.
- e. Afterwards go to *"start – settings – control panel – modem"* and push the button *"Add"*.
- f. Activate the option *"Choose modem (no automatic identification)"* and go ahead with *"Next"*.
- g. In the following window of the manufacturer and modemtypes push the button *"Disc"*.
- h. Put in the disc with the label *"Driver disc"* and push the button *"ok"* in the window *"copy manufacturer file"* if drive A:\ is chosen.
- i. Choose in the following window the model *"PCMCIA V.90 FAX MODEM CARD"* and click the button *"Next"*.
- j. Answer the question *"At which ports do you want to install?"*, with the com port the card is lying (see paragraph d) and push the button *"Next"*.
- k. If there was no modem used, the system is asking several details for the location.
- l. At the end, the message *"Now the modem is configured"* appears. Confirm this message with *"Finish"*.

Note:

- a. According to the BIOS: Pay attention, that in the BIOS of your PC the operating system is prepared to "Other" (if NT is not listed). If it's prepared for another operating system, the card will not work.
- b. For using the DFÜ-Network, the RAS service must be installed and the modem added as well.

Installation of the modem utilities (necessary to change the country settings):

Put in the disc with the label *"World Traveler Modem Setup Utility"* and start the setup.exe. Now the utilities will be installed and you can use them under *start – program – World Travel*.
